HDL/150/G	Heavy Duty, Hot Dipped Galvanised, Ladder	1/7/2025
-----------	---	----------

**Description:**

150mm Heavy Duty 100mm Deep Ladder HDG - 3 Metre Length

**Features:**

- Durable hot dip galvanised finish for long-term corrosion resistance.
- Designed to support high cable loads over long spans.
- Suitable for heavy-duty industrial and commercial applications.
- Wide range of accessories including bends, tees, risers and reducers.
- Compatible with industry-standard fixings and couplers.
- Rung spacing: 300mm between centres.
- Even when ladders are cut to length, the slots in the coupler will always align with the slots in the ladder side rails.
- When connecting fittings to straight lengths, use fastener sets.
- Manufactured to meet UK and international standards.
- Covers for cable ladder available upon request.
- 6 metre lengths available upon request.

**Technical:**

<b>Product Type</b>	Ladder Tray
<b>Width</b>	150mm
<b>Height</b>	120mm
<b>Length</b>	3000mm
<b>Weight</b>	13.80 Kgs
<b>Dimensions</b>	300mm Rung Pitch
<b>Gauge</b>	1.5mm
<b>Material</b>	Post Hot-Dipped Galvanised (HDG)
<b>Colour/Finish</b>	Self Colour
<b>Standards</b>	BS EN ISO 1461:2009

**Important:**

HDG ladders are suitable for internal and external use, including light industrial and coastal environments. Ensure cut edges or drilled holes are treated with a suitable zinc-rich paint or similar to maintain corrosion protection.

**Extra Information**

3 m and 4 m spans using 3 m lengths. Safe working load should include all cable loads and any other additional loads (e.g. wind, snow).

The approximate weights given are for pre-galvanised finish only, in kilograms (nominal) and subject to material thickness tolerance.

**Dimensions: (mm)**

<b>W</b>	190mm
