

Product Code:	Product Range:	Issue Date:
MDL/750/G	Hot Dipped Galvanised, Ladder, Medium Duty	1/7/2025

## Description:

750mm Medium Duty 100mm Deep Ladder HDG - 3 Metre Length

## Features:

- Durable hot dip galvanised finish for long-term corrosion resistance.
- Designed to support high cable loads over long spans.
- Suitable for heavy-duty industrial and commercial applications.
- Wide range of accessories including bends, tees, risers and reducers.
- Compatible with industry-standard fixings and couplers.
- Rung spacing: 300mm between centres.
- Even when ladders are cut to length, the slots in the coupler will always align with the slots in the ladder side rails.
- When connecting fittings to straight lengths, use fastener sets.
- Manufactured to meet UK and international standards.
- Covers for cable ladder available upon request.
- 6 metre lengths available upon request.

## Technical:

**Product Type** Ladder Tray

**Width** 750mm

**Height** 100mm

**Length** 3000mm

**Weight** 20.30 Kgs

**Dimensions** 300mm Rung Pitch

**Gauge** 1.5mm

**Material** Post Hot-Dipped Galvanised (HDG)

**Colour/Finish** Self Colour

**Standards** BS EN ISO 1461:2009

## Important:

HDG ladders are suitable for internal and external use, including light industrial and coastal environments. Ensure cut edges or drilled holes are treated with a suitable zinc-rich paint or similar to maintain corrosion protection.

## Extra Information

3 m and 4 m spans using 3 m lengths. Safe working load should include all cable loads and any other additional loads (e.g. wind, snow).

The approximate weights given are for pre-galvanised finish only, in kilograms (nominal) and subject to material thickness tolerance.

## Dimensions: (mm)

**W** 790mm
