

**Product Code:**

HDL/RB/G

Product Range:Heavy Duty Accessories, Hot
Dipped Galvanised, Ladder**Issue Date:**

2/9/2025

Description:

Heavy Duty Ladder Hanger Rod Brackets (Pairs) HDG

Features:

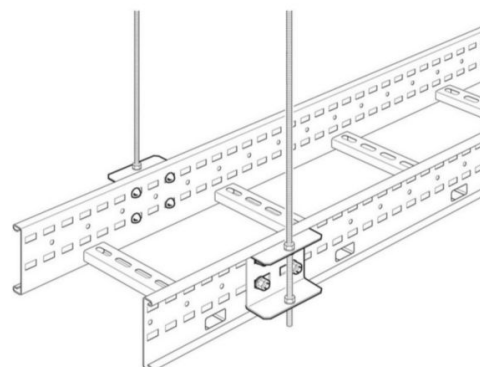

- Hanger rod brackets are an effective way of supporting any width of cable ladder off studding without the need for special trapeze hangers or cut lengths of strut.
- They are particularly useful when space to the sides of a ladder run is restricted or where maximum headroom is required below a ladder run.
- Hanger rod brackets are available for all ladder ranges and supplied in pairs with bracket to ladder fasteners.
- Brackets can be used with either M10 or M12 threaded rod.
- Brackets are fixed directly to the outside of the ladder siderail.
- The slots in the side rail and the bracket provide sufficient movement to align the bracket with the threaded rod.
- Bracket to threaded rod fasteners (not included).

**Technical:****Product Type** Hanger Rod Bracket**Width** 48mm**Height** 104mm**Length** 120mm**Weight** 1.00 Kgs**Dimensions** Two 13mm ϕ holes**Gauge** 1.5mm**Material** Post Hot-Dipped Galvanised (HDG)**Colour/Finish** Self Colour**Standards** BS EN ISO 1461:2009**Supplied With** 4x M10 Fastener Sets Per Coupler**Pack Quantity** Pairs

The approximate weights given are for pre-galvanised finish only, in kilograms (nominal) and subject to material thickness tolerance.

Important:

HDG ladders are suitable for internal and external use, including light industrial and coastal environments. Ensure cut edges or drilled holes are treated with a suitable zinc-rich paint or similar to maintain corrosion protection.
